ZING RUST™

Zing Rust™ is the font bundle's leading star. The 455 fonts of this layered type system give endless possibilities to mix and make various design combinations. Each style could be used separate or merged in order to achieve all the creative designs you can imagine. The font is based entirely on hand writing which brings an aesthetics that can't be imitated with any computer filters, scripts or plugins. Having moderate proportions Zing Rust™ is the perfect solution for logos and headlines that really stand out.

Sans

Zing Sans Rust ™

The package is not full without Zing Sans™ — with it's wide and calm proportions perfect for short text in small sizes, but also pleasant enough to use isolated as display headline. It has distinctive geometric spirit smoothed with handmade details such as slightly slanted axis visible in the terminals.
The combination of Zing Script™ and Zing Sans™ brings a balanced completeness.
